KING TIDES

The September king tide flooded West Avenue garages. Get on the free-parking list before the next one.

2 feet or less If your street sits 2 feet or less above sea level, you qualify for free city garage parking during a flood alert.

Late on Saturday, Sept. 26, tide water rushed into the garage at the Sunshine Bay condo on West Avenue. Some residents went days without power. Commissioner Alex Fernandez said stormwater pumps alone can't stop flooding driven by the tide. The city says it is spending more than $100 million in the West Avenue area to raise roads and seawalls.

Free garage parking: how to get it

Sign up at **apps.miamibeachfl.gov/ParkingFloodRelief**. The city emails you when flooding is possible and when the program turns on. Three city garages, first come, first served, and free only while a flood notice is active. Spaces are limited, so register now, not the night the water comes. Questions: **305-673-7505**.
